

# STRETCH GORE-TEX® FABRIC

Durably waterproof and form fitting offering enhanced freedom of movement for static or active operational scenarios

Durably  
Waterproof &  
Windproof

Low Force  
to Stretch

Durable  
Stretch &  
Recovery

Resistant to DEET,  
Petroleum, Oils,  
& Lubricants

Durable  
to Tear  
& Abrasion

## DURABLE STRETCH & RECOVERY

- Low force to stretch with highly elastic properties
- Form fitting, athletic construction that offers enhanced freedom of movement
- Minimizes compression of under layers to ensure thickness of insulation is maintained and user warmth is not compromised
- Mechanically durable to tear and abrasion

## DURABLY WATERPROOF & WINDPROOF

- Durable weather protection ensures user and under layers remain dry and comfortable

## EXTREMELY BREATHABLE

- 25% more breathable than PCU L6
- Reduces the accumulation of sweat so the wearer stays cool during activity and warm during cool-down
- Extends the range of utility to warmer conditions

## CONTAMINATION RESISTANT

- Maintains protection over time, even after exposure to DEET, JP-8, petroleum, oils and lubricants
